Social skills Ability and predisposition for teamwork, gained from the need to often collaborate with different professionals to achieve common goals.

Organizational skills I think I have an excellent predisposition for problem solving; I always try to address the problems from different angles and perspectives. Patient and tenacious, I try to get the best from what is made available to me.
 Although not strictly relevant from a technical point of view, the experience has taught me to manage the relationships with customers and suppliers and develop the various projects also in terms of budget

Technical skills In over 35 years of experience, I have developed skills that cover the various sectors of IT and this helps me to be able to evaluate and choose the best solution depending on the project and need.
 I can therefore briefly summarize the skills and knowledge acquired

- In-depht knowledge of Microsoft and Linux/Unix operating systems, their installation, configuration and maintenance.
- In-depht knowledge of Microsoft and Linux/Unix operating systems, their installation, configuration and maintenance.
- In-depht knowledge of server, client e peripherals and wifi networks
- In-depht knowledge of backup techniques and procedures
- In-depht knowledge of designe ad deployment of servers (file servers, Active Directory, dhcp, dns, ftp, mail server etc).
- In-depht knowledge of cybersecurity and remote access (firewall, vpn, appliance utm),.
- Ottima conoscenza of Microsoft Exchange, Active Directory.and Hyper-V
- Development and SEO positioning of websites
- In-depht knowledge.of VOIP.

Driver license Car and motorbike (A and B)
